**GENERAL INFORMATION**

**Your general practitioner will continue to be the doctor that you contact for general illnesses and conditions which are not related to your prolapse or bladder problems.**

If, after your consultation or surgery, you have any questions or concerns you may phone the rooms and speak to our nurse. Our nurse is not available every day, but when she is next in she will return your call.

We endeavour to keep to our scheduled appointment times however, circumstances do arise that may cause an unavoidable delay.

Whilst we understand it is sometimes necessary to bring children along to your appointment, we have found that children may be intolerant if there are long delays. We seek your consideration of other patients.
